

HEALTH ATTESTATION

Collective Kind complies with the guidelines and directives as outlined by the Centers for Disease Control (CDC), NYC Department of Health & Mental Hygiene (DOHMH), NY State Office of Child and Family Services (OCFS), and Occupational Safety and Health Administration (OSHA) on the preparation, preparedness, prevention and response to COVID-19. As additional guidance becomes available, this "Health Attestation" and our "COVID-19 Health & Safety Plan" will be updated accordingly.

I agree to the following protective measures:

- Adults wear face coverings at all times. Children over 2 will bring a face covering to school to be worn when indoors and in close proximity to others.
- Only vaccinated caregivers will be permitted to enter the indoor areas of the school. Upon entering the school:
 - Both adults and children will wash their hands for 20 seconds.
 - If commuting on public transit (bus, train, taxi service) we will wear masks in transit.
- Adult and child(ren)'s temperatures will be taken at home before commuting to school. If the adult and/or child(ren), or anyone in the household, has had a fever of 100.4 or higher within the past 72-hours, I will notify Collective Kind staff and we will remain home from class until everyone is fever-free for at least 72-hours.
 - Temperatures will also be taken before entering the school.
- I will participate in all weekly or biweekly onsite testing that is offered when I am present.
 - All adults who are onsite during testing will participate and we encourage all children to participate as well.
- If anyone in the household is showing symptoms of or is diagnosed with COVID-19 I will notify Collective Kind staff so the class cohort can be informed of this information and the "COVID-19 Health & Safety Plan" will be followed as is relevant to each situation.
- If we travel somewhere on the CDCs most up-to-date restricted travel lists we will follow CDC guidance for quarantining before returning to school.
- Families agree to follow updated CDC Guidelines as they are released.

While these protective measures aim to mitigate the potential risks of contracting COVID-19, none is 100% effective alone or in combination. Note that no in-person programming setting is immune from the possibility of spreading COVID-19. Although we will take protective measures to keep our community safe and healthy, please understand that an inherent risk of in-person attendance is the potential for the spread of germs and illness.

Recommended safety measures for outside of school:

- When indoors, wear a mask whether or not you are vaccinated
- Maintain social distancing as much as possible (CDC recommends a minimum of 3 ft if you are vaccinated and 6ft if you are not)
- Seek frequent communication with those you come in contact with about their vaccination status and possible exposure to COVID-19
- Minimize travel

As parent(s)/guardian(s) of a child attending Collective Kind for in-person programming, please sign below indicating that you understand the risks associated with your attendance and that you assume all responsibility should a member of your family be exposed to or diagnosed with COVID-19 while your child attends Collective Kindclasses:
