

## STAFF HEALTH ATTESTATION

Collective Kind complies with the guidelines and directives as outlined by the Centers for Disease Control (CDC), NYC Department of Health & Mental Hygiene (DOHMH), NY State Office of Child and Family Services (OCFS), and Occupational Safety and Health Administration (OSHA) on the preparation, preparedness, prevention and response to COVID-19. As additional guidance becomes available, this “Health Attestation” and our “COVID-19 Health & Safety Plan” will be updated accordingly.

I agree to the following protective measures:

- I will wear face coverings at all times.
  - I will support children over 2 in wearing their masks while indoors.
- All staff will provide proof that they are vaccinated against COVID-19.
- Upon entering the school:
  - I will wash their hands for 20 seconds.
  - If commuting on public transit (bus, train, taxi service) I will wear masks in transit at all times.
- I will take my temperature at home before commuting to school. If I, or anyone in my household, has had a fever of 100.4 or higher within the past 72-hours, I will notify Collective Kind staff and we will remain home from class until everyone is fever-free for at least 72-hours.
  - Temperatures will also be taken before entering the school.
- I will participate in all weekly onsite testing.
- If anyone in the household is showing symptoms of or is diagnosed with COVID-19 I will notify Collective Kind staff so the class cohort can be informed of this information and the “COVID-19 Health & Safety Plan” will be followed as is relevant to each situation.
- If I travel somewhere on the CDCs most up-to-date restricted travel lists, I will follow CDC guidance for quarantining before returning to school.
- I agree to follow updated CDC Guidelines as they are released.

While these protective measures aim to mitigate the potential risks of contracting COVID-19, none is 100% effective alone or in combination. Note that no in-person programming setting is immune from the possibility of spreading COVID-19. Although we will take protective measures to keep our community safe and healthy, please understand that an inherent risk of in-person attendance is the potential for the spread of germs and illness.

Recommended safety measures for outside of school:

- When indoors, wear a mask
- Maintain social distancing as much as possible (CDC recommends a minimum of 3 ft if you are vaccinated and 6ft if you are not)
- Seek frequent communication with those you come in contact with about their vaccination status and possible exposure to COVID-19
- Minimize travel

As a staff member leading in-person programming at Collective Kind, please sign below indicating that you understand the risks associated with your in-person position and that you assume all responsibility should you be exposed to or diagnosed with COVID-19 while you are present at Collective Kind.
